era**dens** X

DENSITY TESTING

eradens X Xtra Easy Xtra Rugged Xtra Accurate

ERADENS X is the world's smallest and lightest high-precision density meter measuring in full compliance with ASTM D4052 and ISO 12185. Its revolutionary vertically aligned x-oscillating metal U-tube design is extremely reliable and insensitive to toughest ambient conditions, making **ERADENS** X the perfect solution for density testing in stationary as well as in mobile laboratories.

With the x-oscillating metal U-tube technology inside, **ERADENS** X provides density results with 5-digit precision. eralytics unique full range viscosity correction ensures that the highest possible accuracy is achieved over the wide temperature range of 0 - 100 °C.

eradens X

eralytics 110

ERADENS X is the analyzer with the smallest footprint on the market, still offering maximum ease of use and operator convenience. The compact dimensions and lightweight instrument design offer true portability on-site and require minimum bench space in the lab.

The large industry-proven color touchscreen with its intuitive user interface design makes your daily measurement routine highly efficient and keeps operation easy, even with gloves on.

With its unique sample introduction from the top ERADENS X is equally easy to operate for right-handed and left-handed persons.

Results are displayed on the large touch screen and can be printed, exported via USB or directly transferred to a PC or LIMS via ethernet connection.

ERADENS X is built in a corrosion-resistant aluminum housing and has no moving parts. The revolutionary design featuring a vertically aligned x-oscillating metal U-tube makes **ERADENS X** an extremely robust and versatile analyzer that is unaffected by shocks and vibrations.

It is therefore the perfect solution for highly accurate testing even under extreme conditions.

> The vertical alignment of the U-tube minimizes the probability of air bubbles getting trapped inside the density cell. For the verification of the bubble free filling, eralytics has developed FillingProof™.

In contrast to error-prone optical methods, the change in the density as a function of applied pressure is used to detect even smallest bubbles providing reliable results also for non-transparent samples such as crude oil.

Technical Specifications of eradens ${f X}$

Density Range 0 ° C to 100 ° C (32 ° F to 212 ° F) Density Accuracy 0.00005 g/cm³ Density Repeatability (SD) 0.000005 g/cm³ (according to ISO 5725) Density Resolution 0.00001 g/cm³ Temperature Accuracy 0.02 ° C (0.04 ° F) Pressure Range 0 - 10 bar (1.45 psi) absolute pressure Measurement Time 15 sec (after temperature equilibration) Sample Volume 2 mL Oscillating Tube Hastelloy Bubble Detection* FillingProof™ - automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMs connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4* multilingual color touchscreen Power	Standard	ASTM D4052, D5002, ISO 12185
Density Accuracy Density Repeatability (SD) Density Resolution 0.000015 g/cm³ (according to ISO 5725) Density Resolution 0.00001 g/cm³ Temperature Accuracy 0.02 °C (0.04 °F) Pressure Range 0 - 10 bar (1.45 psi) absolute pressure Measurement Time 15 sec (after temperature equilibration) Sample Volume 2 mL Oscillating Tube Hastelloy Bubble Detection' FillingProof™ - automated bubble detection and bubble quantification Viscosity Correction' yes - full range correction Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote Service Remote service capability via Ethernet Interfaces Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % fel. humidity (non-condensing)	Density Range	0 - 3 g/cm ³
Density Repeatability (SD) Density Resolution 0.00001 g/cm³ Temperature Accuracy 0.02 °C (0.04 °F) Pressure Range 0 - 10 bar (145 psi) absolute pressure Measurement Time 15 sec (after temperature equilibration) Sample Volume 2 mL Oscillating Tube Hastelloy Bubble Detection* FillingProof™- automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote Service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Power Requirements 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Temperature Range	0 °C to 100 °C (32 °F to 212 °F)
Density Resolution 0.00001 g/cm³ Temperature Accuracy 0.02 °C (0.04 °F) Pressure Range 0 - 10 bar (145 psi) absolute pressure Measurement Time 15 sec (after temperature equilibration) Sample Volume 2 mL Oscillating Tube Hastelloy Bubble Detection* FillingProof™- automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Density Accuracy	0.00005 g/cm ³
Temperature Accuracy 0.02 °C (0.04 °F) Pressure Range 0 - 10 bar (145 psi) absolute pressure Measurement Time 15 sec (after temperature equilibration) Sample Volume 2 mL Oscillating Tube Hastelloy Bubble Detection* FillingProof™- automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4° multilingual color touchscreen Power Requirements 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Density Repeatability (SD)	0.000005 g/cm³ (according to ISO 5725)
Pressure Range 0 - 10 bar (145 psi) absolute pressure Measurement Time 15 sec (after temperature equilibration) Sample Volume 2 mL Oscillating Tube Hastelloy Bubble Detection* FillingProof™ - automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Density Resolution	0.00001 g/cm ³
Measurement Time 15 sec (after temperature equilibration) Sample Volume 2 mL Oscillating Tube Hastelloy Bubble Detection* FillingProof™ - automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Temperature Accuracy	0.02 °C (0.04 °F)
Sample Volume 2 mL Oscillating Tube Hastelloy Bubble Detection* FillingProof™ - automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote Service Remote service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Pressure Range	0 - 10 bar (145 psi) absolute pressure
Oscillating Tube Hastelloy Bubble Detection* FillingProof™- automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Measurement Time	15 sec (after temperature equilibration)
Bubble Detection* FillingProof™- automated bubble detection and bubble quantification Viscosity Correction* yes - full range correction Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Sample Volume	2 mL
Viscosity Correction* yes - full range correction API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Interfaces Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Oscillating Tube	Hastelloy
Tables & Functions API, specific gravity, sugar, alcohol, etc, and freely programmable tables Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote Service Remote service capability via Ethernet Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Bubble Detection*	FillingProof™ - automated bubble detection and bubble quantification
Special Features Integrated fully-automated drying pump, built-in ambient pressure sensor Result Database Over 100 000 detailed test reports stored Remote Service Remote service capability via Ethernet Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4* multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Viscosity Correction*	yes - full range correction
Result Database Over 100 000 detailed test reports stored Remote Service Remote Service capability via Ethernet Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Tables & Functions	API, specific gravity, sugar, alcohol, etc, and freely programmable tables
Remote Service Remote service capability via Ethernet Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Special Features	Integrated fully-automated drying pump, built-in ambient pressure sensor
Built-in PC with Ethernet, 4 x front and rear USB and RS232 interfaces; Wi-Fi via USB dongle Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Result Database	Over 100 000 detailed test reports stored
Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF Optional input by keyboard, mouse, and barcode reader Display Industry proven 8.4" multilingual color touchscreen Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Remote Service	Remote service capability via Ethernet
Power Requirements 85 - 264 V, AC 47 - 63 Hz, max 150 W Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Interfaces	Direct LIMS connectivity via LAN, output to printer or PC and export as CSV or PDF
Operating Conditions 5 °C - 45 °C up to 90 % rel. humidity (non-condensing)	Display	Industry proven 8.4" multilingual color touchscreen
	Power Requirements	85 - 264 V, AC 47 - 63 Hz, max 150 W
Dimensions & Weight W x D x H = 15,7 x 28,5 x 28,9 cm (6.2 x 11.2 x 11.4 in); 7 kg (15 lb)	Operating Conditions	5 °C - 45 °C up to 90 % rel. humidity (non-condensing)
	Dimensions & Weight	W x D x H = 15,7 x 28,5 x 28,9 cm (6.2 x 11.2 x 11.4 in); 7 kg (15 lb)

Due to continuing product development, specifications are subject to change.

All eralytics products are manufactured under ISO 9001 regulations and are CE, ROHS and UL/CSA compliant. www.eralytics.com
